

## NEW FOSS PATHWAYS PILOT KITS

**FOSS PATHWAYS™**  
Developed at  
The Lawrence Hall of Science

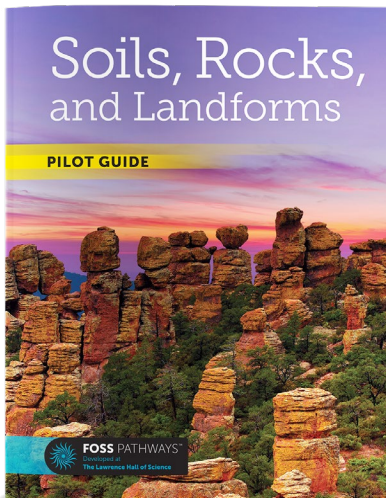

# Put our science curriculum to the toughest test: yours.

FOSS® Pathways™, our newest PreK–5 core science curriculum, is transformed to help you make the most of every classroom minute. Now, NEW FOSS Pathways Pilot Kits and Pilot Guides allow teachers to get acquainted with the FOSS Pathways program and components—while giving their students a taste of hands-on, phenomena-based science instruction.

# Each FOSS Pathways Pilot Kit includes:

- Materials for 4 to 8 weeks of 45-minute class sessions, depending on how often you teach science and which grade level you choose. Like all FOSS investigations, they are driven by local and relevant anchor phenomena and driving questions
- An accompanying Pilot Guide with an outline of the equipment provided in the kit, an overview of the phenomena, activities, resources, blackline masters, and coding guides needed for the pilot
- Teacher Print, including 1 spiral-bound Investigations Guide (teacher editions) and 1 FOSS Science Resources book (student text)
- Equipment Kit with enough materials for 24 students (grades K–2) or 32 students (grades 3–5)
- Access to digital resources, including the FOSS Science Resources student eBook, via FOSSweb on ThinkLink®

GRADE	ITEM #	FOSS Pathways Pilot Kit
K	2141821	Trees and Weather
1	2105937	Sound and Light
2	2105938	Solids and Liquids
3	2105936	Water and Climate
4	2105939	Soils, Rocks, and Landforms
5	2105940	Living Systems

## Your Pilot Kit awaits.
